

The Kellerwald NationalParkCentre

Germany's youngest NationalParkCentre wants to surprise you with its eye-catching architecture, unusual exhibits and a unique 4D cinematic experience. The exhibition "TreeDream" is dedicated to the exciting topic of wilderness. Wilderness – the concept of leaving nature to its own resources able to develop itself without human influence. Engage yourself with the national park's philosophy "Let nature be nature", an idea shared by national parks around the world.

Even aside from the exhibition there are many things to experience at the Kellerwald NationalParkCentre: In the foyer you can obtain information about the region. The high quality NationalParkShop invites you to rummage about and in the GuestRoom you can strengthen yourself with regional specialties.

Opening hours

April to October
daily 9.00 a.m. – 6.00 p.m.
November to March
Tue – Sun 10.00 a.m. – 4.30 p.m.

Kellerwald NationalparkCentre

Space for wilderness & people

Space for wilderness & people

The exhibition is divided into three areas: the Ancient Treasures of the wilderness, the ForestAct and the 4D-SensesCinema.

The **Ancient Treasures of the wilderness** are the emotional atonement to the exhibition. You will experience a very special atmosphere in the different habitats of the national park: the Fairy Hill, Rocks and Gorges, Springs and Creeks and Ancient Beech Forests.

Springs and Creeks – welling tranquillity
All life originates from water. Dip into and play with the cool, clear element.

The interactive exhibits in the **ForestAct** reveal the many little secrets of the beech forest and its inhabitants. Already the names are unusual and imaginative as are the shapes and design of the elements. Here is a little pre-taste of what to expect in the ForestAct:

GamePass

Follow the track of the wildcat through the national park's wilderness – from habitat to habitat!

TreasureReservoir

Discover and collect the national park's treasures – from Mysterious Graffiti to the Fragile Dival!

SpyHoles

Take a look into the beech tree's hidden worlds – into the life beneath the bark and in the wood!

BeechoScope

Navigate through the stages of the forest and a beech tree's life – from seedling to decaying tree!

GlanceShots

Fly from space to the originating wilderness of the national park – from a bird's eye view right into the forest!

AncientTimes

Take a trip into the national park's past and future – from ancient times to tomorrow's wilderness. Experience the seasons and the change from day to night! Turn the wheel of time!

A very special cinematic experience!

A unique **3D movie** takes you on a ramble through the wilderness.

BeechViews

Join a ranger at the National Park Kellerwald-Edersee and experience the originating wilderness in four dimensions. Feel the wind or the water running in the creeks and be ready for a surprise...
